Impresión y armado

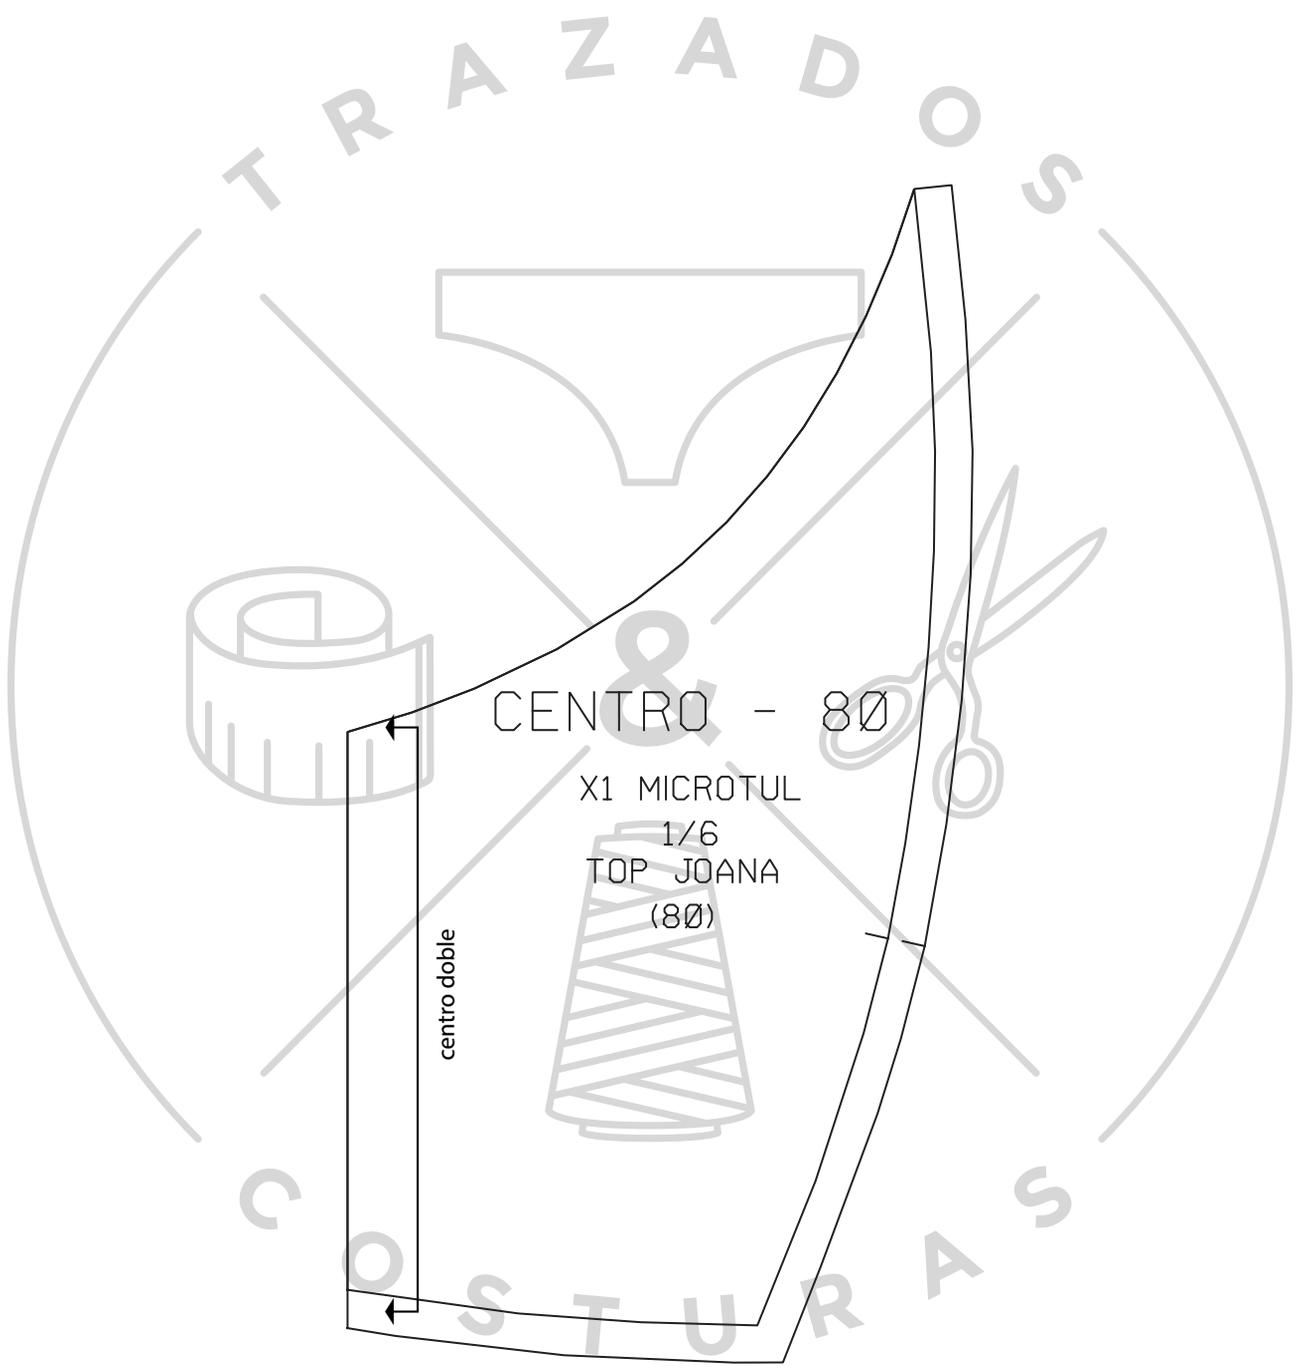

En este archivo los moldes se encuentran separados por talle, con lo cual mirando en el índice vas a saber en qué paginas se encuentra cada talle y elegir imprimir todo o parte.

Es importante que al momento de imprimir selecciones la opción escala real o 100% (marcado en color verde) y que verifiques que el papel que uses sea de mayor tamaño que la página (color naranja). Respetando esta condición, podés usar hoja A4 u oficio. Cada talle tiene un cuadro verificador para constatar que la escala está correcta.

Al tratarse de piezas pequeñas muchas veces entran en una hoja completa, en la mayoría de los talles, pero en otras será necesario unir hojas. Para esto sólo tenés que seguir el orden de las páginas según la numeración, recortá por la línea delimitadora y uní las páginas sin superponer. En caso de no haber cuadro delimitador, para trazar las líneas y recortar.

Si utilizás mis moldes para tu emprendimiento, me gustaría que me compartas imágenes o me etiquetes. Yo las compartiré en mis redes de manera que podamos ayudarnos mutuamente.

Estos moldes son el resultado de años de estudio y aprendizaje. Te pido que por favor los uses de manera responsable, no los compartas en grupos ni regales ni los vendas.

Si tenés dudas, reclamos o sugerencias, podés escribirme a esta dirección y te responderé lo antes posible. También podés contactarme por mensaje directo de instagram.
